Dear Sirs:

## Routine Inspection

The routine inspection of your cement manufacturing plant at 3801 E. Marginal Way South, Seattle, Washington, on September 12, 1984, disclosed deficiencies which may result in a violation(s) of this Agency's Regulation I, Article 9 emission standards.

The deficiencies noted during the inspection consisted of particulate emissions from the No. 2 mill discharge baghouse and excessive particulate accumulation in and around the clinker barge unloading baghouses.

All violations of this Agency's Regulation I may be subject to further enforcement action, including but not limited to, civil penalty assessments of \$400.00 for opacity violations and \$1,000.00 for any other violations (particulate emissions) per day.

Please submit a written response within ten (10) days upon receipt of this letter describing the specific steps of any control program that has been, or will be, undertaken
